

## **Archived information for Alice Flavor Blend Extracts and Custom Blend Extracts**

**Ingredients include:** Natural Flavor Extracts, Premium PG and Premium VG. For best results, we recommend using the following percentage when mixing: 25% extract and 75% carrier.

You can use it in a 1:4 ratio with the carrier of your choice. Do not eat/drink or otherwise use directly!

*Be sure to make a note of your favorite recipes!*

### **So for a 15ml, use:**

3.75ml of Extract and 11.25ml of carrier OR  
3/4 tsp of Extract and 2 1/4 tsp carrier OR  
75 drops of Extract and 225 drops of carrier

### **For a 30 ml, use:**

7.5ml of Extract and 22.5ml of carrier OR  
1 1/2 tsp of Extract and 1 1/2 tbsp carrier OR  
150 drops of Extract and 450 drops of carrier

### **For a 60ml, use:**

15ml of Extract and 45ml of carrier OR  
3 tsp of Extract and 3 tbsp of carrier OR  
300 drops of Extract and 900 drops of carrier

### **Notes:**

1ml is about 15-20 drops. The amount of drops in a dropperful depends on the dropper size.

You can find out more about using extracts on Reddit or other websites/forums.. A teaspoon is 5ml.

**Note regarding the Custom Blends:** The percentages you chose are for a final diluted recipe. Most individual flavor blend ingredients at around 1-4% in a final diluted recipe. We calculate your concentrated 4X blend based on your recipe. You may wish to tweak further by adding [Sweet Lumps](#), [Tart Drops](#) and/or [Liquid Menthol](#).

\*\*\*Note: These are flavor extracts meant to be used in your favorite recipe. Please do not eat/drink or otherwise use them straight.\*\*\*
